YOUR
Trauma
Kit...

and what
condition is it in?

Proven in Afghanistan and Iraq, the Phokus Trauma Kit is engineered to be durable, lightweight, and efficient during trauma treatment. From the full custom kit to the pocket-sized Shield, the Phokus Trauma Kits are battle tested innovations that increase survivability.

14G Needle

Sharpie

Casualty Card

DTK & DTK 2

The original Phokus Trauma kit design, the **Deployment** Trauma Kit was made to fit easily and securely behind an Operator's ballistic plates or concealable armor. Patent pending design includes a pull-tab and "rip-cord" for rapid deployment. Ballistic protection on the Operator offers a safe location to wear essential medical gear. DTK II features an external pill pouch.

The **Low Visibility** Trauma Kit features low profile packaging designed to easily fit in a cargo pocket or in a small pouch on the lower back. The LVD/LVD II can be carried in addition to the DTK/DTK II, allowing the Operator enough gear for Self-Aid and Buddy-Aid. LVD II features an external pill pouch.

PATIENT ASSESSMENT

HOPLITE | NIGHT VISION FOCUSING COVER

HL-1

Have you ever come off your weapon to adjust NVG focus? Does your mission require constant distance changes from far to near? Now, the Hoplite Focusing Cover gives you a critical advantage while on Night Vision. Its patented technology allows your NVG's to stay focused out to infinity while adding visual clarity for **patient assessment** at 1-to-5 feet.
